Expense Tracker

Prof Miriam Thomas

To reduce manual calculations, we propose an application. This application allows users to maintain a digital automated diary. Each user will be required to register on the system at registration time, the user will be provided id, which will be used to maintain the record of each unique user. Expense Tracker application which will keep a track of Income-Expense of a user on a day to day basis.

Accuracy : 83.5%

Spending Tracker

Uday Pratap Singh

Tracking daily expenses is not so contemporary. Many traditional and technical approaches have been invented to track expenses and budget with its performance. In past and today, we write our amount in the register to calculate harvest or savings. Not only this, many desktop and mobile applications have been developed for this purpose. Quicken and Microsoft Money were the first desktop applications developed many years ago, but can't get fame and name in the digital world. Personal capital and the Dollar Bird app are used to display spending on maps or graphs with a calendar in-built system. QuickBook was an app for the limited business holder to wrap up their consolidated business.

Expense Tracker

Praphulla S. Kherade

We are building an android application named as "Expense Tracker". As the name suggests, this project is an android app which is used to track the daily expenses of the user. It is like digital record keeping which keeps the records of expenses done by an user. The application keeps the track of the Income and Expenses both of user on a day-to-day basis. This application takes the income of an user and manage its daily expenses so that the user can save money. If you exceed daily expense allowed amount it will give you a warning, so that you don't spend much and that specific day. If you spend less money than the daily expense allowed amount, the money left after spending is added into user's savings. The application generates report of the expenses of each end of the month. The amount saved can be used for celebrating festivals, Birthdays or Anniversary.

Accuracy : 89.1%
